

SUPER CROSS PLIERS & SIDE CUTTERS SET DY89310333

Today's machinery designs are compact and more efficient, making access for making repairs difficult to achieve without the right tools. Super Cross Pliers utilize dual-pivoting points to deliver an extra-long reach and a powerful grip. Super Cross Pliers provide extended access and a strong grip for working screws, washers, nuts, hoses, tubes, clamps, low voltage electrical terminal connections, and more. Compare Super Cross dual pivot pliers to ordinary single pivot extra-long pliers – Super Cross Pliers own the advantage.

- Dual-pivoting points minimizes handle opening and maximizes jaw opening while maintaining a slender profile
- Pistol grip stabilizes tool control for a steady approach when reaching and gripping obscure points of engagement
- Straight handles facilitate fastener (rotational) removal in hard-to-reach locations
- Forged, quenched & tempered chrome-vanadium tool steel for optimum toughness and strength
- Finished with a fine and uniform satin finish
- Non-slip rubber sleeved handles provide a slip-resistant grip
- Ergonomic design: reduces repetitive motions, awkward positions and use of excessive force.

Needle Nose (Straight Nose and 45° Bent Nose) - Electrical terminals; hose & tube pinching; aligning sheet metal screw holes; retrieval of dropped components in confined spaces

Bull (Flat) Nose Pliers - Electrical terminals; hose & tube pinching; aligning sheet metal screw holes

Wire Cutting Pliers - Cuts automotive (low volt) wire, hose / tube, and 3/32" soft street wire

SUPER CROSS 4 PIECE PLIERS & SIDE CUTTER SET - CODE# DY89310333

CONTAINS:

- Needle Nose Pliers, Straight Reach Pistol Grip Handle, 13"
- Bull Nose Pliers, Straight Reach Pistol Grip Handle, 13"
- 45° Needle Nose, Pistol Grip Handle, 13" Wire Cutting Pliers,
- Side Cutting Straight Handle, 11-3/8"
