| INERT INGREDIENTS | 20% | NOT HAZARDOUS |

4-THE-BIRDS
Transparent Bird Repellent

4-THE-BIRDS is a transparent, sticky compound which, when applied to ledges and sills, will discourage birds from roosting or returning to these covered areas. This product remains tacky at 15°F and will not run up to 200°F. Where infestation is severe, heavy bird traffic may flatten repellent. In these instances, make a second application immediately. Repellent can be removed with naphtha or powder type cleaning agent available from SUPERCO.

DIRECTIONS FOR USE:

Always follow label instructions. Surface must be clean and dry to assure adhesion of repellent. Clean by wiping or scraping all dust, dirt, loose paint, droppings, etc. On porous surfaces such as stone or unpainted wood, surface must be sealed by brushing on one coat of appropriate sealer or 50% solution of white glue. After coating has dried, apply repellent with a caulking gun or putty knife. Properly applied bead looks like this:

Ledges or sills: Apply about 1 inch in from edge in strips ½" in diameter. Press against sill to get good adhesion and leave occasional gaps for rain water to drain.

Roofs, peaks, cornices, etc.: Apply ¼" diameter bead along highest point. Press against surface to insure good adhesion. This tube when applied in ½" x ½" bead will cover 10 lineal feet. Do not apply larger diameter beads of repellent

Additional Information

4-THE-BIRDS Transparent Bird Repellent is a proven effective method for discouraging many varieties birds from roosting on roofs, gutters, ledges, cornices, parapets, roof peaks, overhead pipes, exterior light fixtures, signs and statues. Birds roosting in these areas can be more than just a nuisance. This problem can represent a serious health hazard if not dealt with effectively. **4-THE-BIRDS** does not poison birds or hurt them in any way. In fact, the ingredients in this product are not listed as hazardous. However, birds will not land or roost on treated surfaces and this will force them to relocate and not return. **4-THE-BIRDS** is easy to apply and is transparent in color. Use this product in any climate conditions, only reapply as necessary, and each treatment may be effective for up to 6 months. Use **4-THE-BIRDS** when other products or methods of bird abatement have failed or proved to be too expensive. Contact your local **SUPERCO** representative for more information.
