

AIR DUSTER

ENVIRONMENTALLY SAFE
WILL NOT HARM THE
ATMOSPHERE

- EXTENSION NOZZLE CLEANS
HARD TO REACH PLACES
 - 100% OZONE SAFE
 - 0% VOC
 - ULTRA PURE
- FILTERED TO 0.1 MICRONS
 - LEAVES NO RESIDUE
 - QUICK AND EASY
 - 10 OZ. CAN

USE AT:
OFFICE, WAREHOUSE,
MAINTENANCE SHOPS,
ELECTRONICS, ETC.

Product # 1642

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

ENVIRONMENTALLY FRIENDLY

AIR DUSTER is a high pressure, ultra pure, moisture free gas ideal for removing microscopic dirt, dust, iron oxide deposits, lint and paper from: camera lenses, scientific equipment, disk drives and cartridges, timing devices, instruments, electro mechanical devices, film, magnetic tapes, heads and card strip pickup units, optical pickups, computer printers, FAX machines, copiers and more. AIR DUSTER is specially formulated and features a finger-friendly button which helps reduce finger tip chill and fatigue.

DIRECTIONS FOR USE:

Keep can in upright position. Hold can 2 inches from surface to be dusted. Operate in a series of short blasts. For pinpoint application, insert extension tube into actuator orifice. Do not tilt, invert or shake can. Tilting or inverting will dispense contents as a liquid. Liquid can cause frostbite. NOTE: Contact with product in liquid form may cause plastic materials to permanently discolor. Do not use on camera mirrors.

1	HEALTH
4	FLAMMABILITY
1	REACTIVITY
1	PERSONAL

DANGER:

EXTREMELY FLAMMABLE. CONTENTS UNDER PRESSURE. Do not use near fire, sparks, or flame. Do not puncture or incinerate.

INGREDIENTS
Propane Isobutane

CAS NUMBER
68476-85-7

Additional Information

AIR DUSTER is a good example of new technology helping the environment. Many industries use "canned air" products or spray solvents to clean film, equipment, instruments and magnetic and optical media. Virtually all of these products contain CFC's and are damaging to the environment. The convenience of these products has always been more important than the damage caused by their use. AIR DUSTER provides the convenience and performance sought by today's technical industries without any environmental damage. AIR DUSTER is 100% ozone safe, 0% VOC, and leaves no residue. This remarkable product is ultra pure and is filtered to 0.1 microns to insure top quality. Use AIR DUSTER to remove dust, dirt, lint and other particles from surfaces that could not be cleaned otherwise. Optical surfaces, electromagnetic media, laser read media and devices are a few of the many types of equipment and surfaces that require periodic cleaning to maintain optimum performance. Using the wrong cleaner to do this kind of maintenance can badly damage the equipment. When in doubt use only the purest and finest filtered product available and that is AIR DUSTER.
