Additional Information

BASE STRIP Earth Friendly Baseboard Stripper and Cleaner is one product that can really make the difficult task of cleaning and stripping baseboards much easier. Usually this task could take all day on hands and knees scrubbing and scraping to remove heavy wax buildup, grease and grime from baseboards and wall tile. With **BASE STRIP** you simply spray the baseboards, edges, corners, etc. with this thick, powerful foam just prior to stripping or cleaning the floor. By the time you get the solution mixed for the rest of the area, **BASE STRIP** has loosened and emulsified the buildup on the baseboards and edges. As you strip or clean the floor with a mop or machine, the buildup on the baseboards just washes away. **BASE STRIP** is an ideal product for spot cleaning. Just spray areas to be cleaned, scrub if necessary, then wipe with a wet towel or sponge. Floor care is an important job that when done well and completely gets noticed by everyone that enters the building or facility. A well maintained floor not only looks great but will generally last twice as long before needing to be repaired or replaced. Consult your **SUPERCO** representative on our floor care program and how it can benefit you and your company. Our reps will be happy to demonstrate how **SUPERCO** products will help save you time, labor and costly replacement of floor coverings and finishes.
