BAHAMA BREEZE

JELL MALODOR COUNTERACTANT

BAHAMA BREEZE is a new, different and unique solution to the problem of foul odors. **BAHAMA BREEZE** clings and sticks to any surface, even vertical and upside-down areas. **BAHAMA BREEZE** is not a space spray. This remarkable new formula is a jelled odor ELIMINATOR that sticks where you spray it then freshens and deodorizes for long periods of time. As **BAHAMA BREEZE** takes care of your odors the jell slowly disappears! The non-staining formula is ideal for use anywhere odors are a problem. Eliminates smoke odors, urine, feces, decay, stale and rancid odors. Use **BAHAMA BREEZE** on air conditioning and HVAC filters to efficiently treat large rooms and offices for long periods of time.

USE ON: AIR CONDITIONER FILTERS, TRASH CHUTES, TRASH BINS, CEILING FANS, PORTA-TOILETS, GARBAGE CANS, ANYWHERE ODORS ARE A PROBLEM.
USE AT: SCHOOLS, MUNICIPALITIES, SPORTS FACILITIES, AUTOS, TRUCKS, HOMES, LAUNDRY ROOMS, PET AREAS, HOTELS, HOSPITALS, NURSING HOMES, ETC.

DIRECTIONS FOR USE:

Shake can well before use. Jelled product follows initial burst of propellant from spray nozzle. Apply liberally from a distance of 12 to 18 inches to an area where product will remain undisturbed. Under a countertop, in a trash can or dumpster, on an air conditioning filter, over a doorway are just a few of the ideal areas to apply **BAHAMA BREEZE**. Jell will provide a pleasant fragrance for an extended period of time until it completely dissipates. Reapply as needed to counteract foul odors.

Additional Information

BAHAMA BREEZE is the newest technology in room deodorizers. This remarkable product is the most convenient and simple malodor counteractant made today. **BAHAMA BREEZE** is a jelled deodorizer that comes out of an aerosol can and sticks where you spray it, even when applied to a vertical or upside down surface. **BAHAMA BREEZE** provides a pleasant smelling environment for an extended period of time. When it is finished, **BAHAMA BREEZE** simply disappears, leaving no residue. This powerful formula is designed for use where other deodorizers have failed or not lasted long enough. Areas like trash chutes and bins, restrooms, portable toilets, office buildings, etc. **BAHAMA BREEZE** is also highly effective when applied to HVAC filters. One simple application can freshen an entire ventilation system in a commercial building or hotel room. Contact your local **SUPERCO** representative for a demonstration of **BAHAMA BREEZE**.
