Additional Information

Superco's new air freshener technology is like none other. When the **COMMODOE CLIP** is made and the plastic is heated into a liquid, at that point the fragrance is added. The product then cools and the fragrance is impregnated into the cell. The **COMMODOE CLIP** will last over 30 days and the fragrance is time released into the area that you want it to be placed.

COMMODOE CLIP is the first and only air freshener dispenser that uses the fragrance as the air freshener. When changing, simply toss the old clip and replace with a fresh one...That's it!

Each **COMMODOE CLIP** is made of a unique patent pending material that contains 30 times more air freshener than standard rim sticks. **COMMODOE CLIP** gradually releases air freshener over 30 days. **COMMODOE CLIP** is environmentally friendly, has low VOC (compliant in all 50 States), is 100% recyclable and will not dissolve or pollute water. **COMMODOE CLIP** is easy to use, clips to the outside of the bowl and shrinks to fit as the fragrance dissipates.
