DUST-OUT
Dust Control and Wetting Agent

- Reduces air pollution and public complaints about dusting.
- Produces fast results - soaks into dirt quickly to help keep muddy areas from forming.
- Clean to apply - no black, oily mess or equipment cleanup problems, unlike conventional dusting oils.

DUST-OUT is an excellent water wetter and surface tension breaker. This 100% biodegradable, nonflammable, non-toxic formula makes water wetter for faster penetration.

AREAS OF USE:

Cement mixers, industrial plants:

- Cuts mixing time.
- Assures uniform wetting of cement.
- Controls dust and dirt from heavy equipment and trucks.
- Saves manpower and increases efficiency of equipment.

Fire Departments:

- Added to water for cotton bale, mattress, hay bale, etc. type fires.
- Gives excellent penetration.
- Cuts water consumption.

Mining Operations:

- Controls dust above and below ground during mining operations.
- Controls dust on roads, yards, etc.

Agricultural:

- Used as a spreader, sticker and wetter for agricultural water-based insecticides, etc.

DIRECTIONS FOR USE:

Dilute product 3 ounces per 100 gallons of water for coverage of 1000 square feet.

Additional Information

DUST-OUT is an advanced, dual purpose product that has many useful applications at almost any facility. Getting control of any dust in the workplace provides a number of benefits; less impact on the health of the workers, minimize the effects of dust on computers and equipment and a higher state of general cleanliness are just a few of the rewards for using **DUST-OUT**. This product also performs well as a wetting agent for improving saturation and penetration of insecticides, fire control water, concrete and many other water added mixtures. Mixed with water based cleaners, **DUST-OUT** works as a surface tension breaker to drastically increase performance on wet surfaces. Contact your local **SUPERCO** representative for information on **DUST-OUT**.
