Product # 3569

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

ECO SEAL
SEALER & DEODORIZER

ECO SEAL is a uniquely formulated, environmentally friendly sealer designed for use in waterless no flush urinals. **ECO SEAL** creates a non-soluble seal of a deodorizing liquid in the trap. **ECO SEAL** also prevents unwanted sewer vapors from backing their way into the air. **ECO SEAL** has a pleasant cherry fragrance to give instant and long lasting odor control from dried out traps, keeping them wet and odor free. Easy to use, simply add it and forget it.

DIRECTIONS:

WATERLESS URINALS: Add 3 ounces of **ECO SEAL** directly into the urinal. When deodorizing no longer takes place, add another 3 ounces.

DRIED OUT DRAINS: Add 1 gallon of water, then add **ECO SEAL** as follows:

< 2" Drains...Add 3 ounces of **ECO SEAL**

3"-4" Drains...Add 6 ounces of **ECO SEAL**

>4" Drains...Add 9 ounces of **ECO SEAL**

As long as there is no additional large amount of water entering the drain, **ECO SEAL** will last indefinitely.

PRECAUTIONS: Avoid contact with eyes, skin and clothing. For eye contact; flush eyes with water for 15 minutes while holding the upper and lower lids open. If irritation persists, see a doctor. For skin contact, wash affected area well with soap and water. If irritation persists, see a doctor. For further precautions, consult the MSDS.
