

EXPIRE

High-Power Spray 20'
Kills Wasps & Hornets
with fast knockdown & kill

- **SHOOTS A STREAM 15-20 FEET**
- **DIELECTRIC STRENGTH 40,100 VOLTS**
- **FAST KNOCKDOWN, SHOOTS INTO NESTS, EAVES & CREVICES**

Product # 1012

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

EXPIRE

High-Power Wasp & Hornet Spray
With fast knockdown & kill

EXPIRE Wasp and Hornet Spray is a high-discharge aerosol product containing a powerful blend of today's most advanced insecticides. EXPIRE has fast knockdown, as well as residual power to keep killing for weeks. Kills bees, wasps, hornets, yellow-jackets, etc. while they are sleeping in their nests. High discharge valve design fires a stream up to 20 feet. This nonconductive formula makes EXPIRE ideal for use on power-poles, breaker boxes, and outdoor electrical junctions without shorting live circuits.

DIRECTIONS FOR USE:

For control of wasps and hornets: Apply after dark when all the insects have returned to the nest. Aim valve opening at nest and depress button, soaking the nest with the spray. Repeat as necessary.

ACTIVE INGREDIENTS:

Tetramethrin [(1-Cyclohexene-1, 2-dicarboximido) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate]..... 0.200%

Sumithrin [3-Phenoxybenzyl-(1rs, 3rs; 1rs, 3rs)-2,2-dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate]..... 0.125%

* **OTHER INGREDIENTS:**.....99.675%

* **TOTAL**.....100.000%

* Contains petroleum distillate.

EPA Reg. No. 44446-54-68363

EPA Est. No. 44446-TX-1

Additional Information

Wasps, hornets and bees are perhaps the most troublesome and to many the most frightening pests on Earth. Controlling this type of insect has always been very difficult. Not any more. EXPIRE combines fast knockdown insecticide and a residual formula to kill bees and wasps in the nest while they sleep. While many of the hives population may be away for days at a time EXPIRE's residual power keeps working to kill them when they get home. This high-discharge aerosol product shoots a stream up to 20 feet allowing you to work from a safe distance. EXPIRE is nonconductive up to 25,000 volts making it ideal to use where hives have been formed around power boxes and fixtures. No need to pay excessive costs to have nests removed by outside contractors, simply spray them with EXPIRE and after a while you can remove them yourself with no problems.
