HELPING HANDS
Intense Moisture Hand Lotion

HELPING HANDS is the latest in hand and skin care. HELPING HANDS is a rich
moisturizing creme blend of the finest and most expensive skin conditioning
ingredients available. This rich skin conditioner contains several skin
conditioning and protecting agents and can be used on the whole body...not just the hands.

- Helps prevent skin irritation, chapping and redness while leaving skin vital and healthy.
- Goes to work immediately helping to repair damaged skin and protect skin against future damage.
- Soothes and moisturizes dry skin without leaving hands feeling greasy.
- Fights dryness and infection often caused by repeated cleaning of hands with harsh industrial cleaners.

Place SOFT TOUCH in Bathrooms and Dressing Rooms of all Industrial and Manufacturing Facilities.

DIRECTIONS:
Squeeze a small amount of HELPING HANDS into palm, rub well with hands and apply to hands, arms, elbows, etc. Repeat as necessary to keep skin soft, comfortable and conditioned.

Additional Information
Hand lotion should be a daily essential for everyone. Your hands perform an amazing amount of work, and their skin is regularly exposed to drying, chafing elements and harmful UV rays from the sun. Incorporating hand lotion into a daily self-care routine helps keep the skin on your hands and fingers supple and healthy. The main benefit of using hand lotion is its moisturizing properties. Using hand lotion helps prevent chapping, cracking and chafing skin. The oil ducts on palms and fingers are tiny compared to elsewhere on the body, so hands get chapped and dry out much more easily than other areas. Keeping skin coated with specific formulas made for hands, which need more oil or moisturizer than the face or body, helps balance dryness. HELPING HANDS from SUPERCO moisturizes the skin and leaves no oily residue. Contact your local SUPERCO representative for information and a demonstration of HELPING HANDS.
