High Liquid Nitrogen Fertilizer

**CONCENTRATED PLANT FOOD FOR INDUSTRIES, MUNICIPALITIES, GOLF COURSES AND APARTMENT COMPLEXES.**

**Product # 5064**

**FOR PROFESSIONAL USE ONLY**  
CONSULT LABEL AND MSDS BEFORE USING.

**HIGH LIQUID NITROGEN**  
Turf and Ornamental Food & Fertilizer

**HIGH LIQUID NITROGEN** features three forms of nitrogen for quick greening and efficient feeding. The Organic Nitrogen is a highly regarded nitrogen source in balanced fertilizers and is especially important in fertilizer for turf grasses and ornamentals. In addition, these fertilizers contain Ammoniacal and Nitrate Nitrogen for fast response application.

**DIRECTIONS FOR USE:**

**HIGH LIQUID NITROGEN** may be applied with a sprayer, proportioning device or sprinkling can. For lawns, football fields, parks, fairways or greens mix 1.5 gallons with 50 gallons of water and apply to approximately 3000 - 4000 square feet. Spray the mixed solution as evenly as possible over the entire area. Water in after application.

For best results, repeat this application every three weeks.

**HIGH LIQUID NITROGEN** may be used in connection with water miscible insecticides and fungicides.
