CONSULT LABEL AND MSDS BEFORE USING.**

INGREDIENTS

CDA 19 Alcohol
Charcoal
Propylene Glycol
DB-45 Calfax
Sodium Sterate
Water

CAS #

36653-82-4
7440-44-0
57-55-6
N/A
497-19-8
7732-18-5

**ENVIRONMENTALLY FRIENDLY
ODOR SPONGE
ODOR SPONGE JUMBO
Nature's Odor Counteractant**

ODOR SPONGE is a dynamic technological breakthrough in the world of odor elimination and air quality enhancement. **ODOR SPONGE** will eliminate virtually all odors and pollutants from the ambient air in you home, office or car, as well as any lingering effects in clothing, curtains, drapes, carpets and upholstery. Use **ODOR SPONGE** in schools, hotels, motels, hospitals, buildings, nursing homes, sewer gas treatment facilities, municipal bus &

subway systems, boats, Rv's, etc.

Direction for Use:

Break security seal. Remove lid and place container in affected area. Do not place on heated surfaces or in direct sunlight. For areas larger than 300 sq. ft., use two or more containers. Replace **ODOR SPONGE** when reduced to 10% of its original size.

As an additional suggested use, as pictured, we mounted this on the wall with Velcro or you can use double-sided tape.

B	PERSONAL

Additional Information

Conventional air fresheners and other deodorants are pollutants in themselves, simply masking odors by introducing perfume into the air. **ODOR SPONGE** actually absorbs and eliminates offensive odors and microscopic pollutants suspended in the air. Once the container is open, **ODOR SPONGE** begins to dissipate into the air in a stream of "lighter than air" molecules that interact with and neutralize odor and pollutant molecules. **ODOR SPONGE** works continuously to control offensive odors and create a purer, fresher, healthier quality of air! Use **ODOR SPONGE** for smoke, mold, trash chutes, cooking and pet odors, fire damage, paint fumes and mildew and decay. Contact your local **SUPERCO** representative for a demonstration of **ODOR SPONGE**.
