Additional Directions

Mildewstat: To control and prevent mold and mildew on hard non-porous surfaces (such as floors, walls and table tops), spray the surface to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

Special instructions for cleaning and decontamination against HIV-1 (AIDS Virus) of surfaces/objects previously soiled with blood/body fluids. Disposable gloves should be worn when cleaning blood, body fluids or contaminated items. Hands should be washed immediately and thoroughly after gloves are removed, or if hands are contaminated with blood or body fluids. Masks and protective eyewear or face shields should be worn during cleaning procedures involving blood or body fluids. Gowns or aprons should be worn during cleaning procedures for protection against splashes of blood or other body fluids. Blood and other body fluids must be thoroughly cleaned from surfaces and objects with a suitable detergent before application of the disinfectant. Leave surface wet for 10 minutes. After cleaning is complete, follow disinfection directions described previously. Contaminated waste and blood and other body fluids should be autoclaved and disposed according to local regulations for infectious waste disposal.

PISTOL

**ONE STEP
 GERMICIDAL CLEANER & DEODORANT**
 With a Pleasant Lemon Fragrance

PISTOL is an EPA registered, USDA authorized concentrated, multi-purpose germicidal detergent. It is effective against a wide variety of pathogens including *HIV-1 (AIDS virus) and Herpes simplex Type 1. This product dilutes 4 ounces per gallon for general disinfecting. Because of its pH, this product can be used on waxed floors without affecting floor finishes. It can be used to clean and disinfect toilet bowls, control the growth of mold and mildew and eliminate odors that are bacterial in origin.

USE IN:

- Veterinary Hospitals • Hospitals • Nursing Homes
- Schools • Colleges • Medical Clinics • Dental Offices
- Meat and Poultry Plants

USE ON:

- Floors • Walls • Metal Surfaces • Toilet Bowls
- Showers • Sinks • Barber Tools • Animal Cages

DIRECTIONS FOR USE:

Disinfection, Cleaning and Deodorizing: Pre-clean all surfaces prior to disinfection. On hard non-porous surfaces such as bathroom tiles, fixtures, shower stalls, walls, sinks and bathtubs proceed as indicated below.

1. Hold container 6 to 8 inches from surface to be treated.
2. Spray area until it is covered with the solution. Allow the product to penetrate and remain wet for 10 minutes. No scrubbing necessary.
3. Wipe off with a clean cloth, mop or sponge.

PISTOL will not leave grit or soap scum.

Virucidal: Against Herpes Simplex Type 1 virus, Herpes Simplex Type 2 (genital) virus, Influenza A2 (Hong Kong) virus and HIV-1 (AIDS Virus).

Fungicidal: Against Pathogenic fungi (T. mentagrophytes) when used as directed on hard surfaces found in the bathroom, shower stall and locker room or other clean, hard non-porous surfaces commonly contacted by bare feet.
