**REMOVE**  
Uratic Salt Remover

- REMOVES URINAL SALTS.
- REMOVES BUILD-UP IN PIPES.
- CONTROLS ODORS IN URINALS.
- SAFE ON ALL PLUMBING.

Product # 3017

**FOR PROFESSIONAL USE ONLY**  
CONSULT LABEL AND MSDS BEFORE USING.

REMOVE Uratic Salt Remover safely removes uratic salt build-up in pipes while at the same time controlling offensive odors. REMOVE is a blend of special acids that also remove water scale build-up toilet bowls, urinals and all tile surfaces. REMOVE is safe on all plumbing, including PVC plastic and all metal pipes.

**DIRECTIONS FOR USE:**

Use 6-8 ounces 3-4 times weekly to control build-up. Use at time of day or night that will allow REMOVE to stay in urinal and pipes and not be flushed right away.

REMOVE Uratic Salt Remover remueve la sal del ácido úrico la cual se acumula en las tuberías - al mismo tiempo controla malos olores. REMOVE es una mezcla de ácidos especiales que también remueven las manchas de agua del inodoro (sanitario) y de toda superficie de azulejo. REMOVE no es peligroso para las tuberías, incluyendo tuberías de plástico PVC y todas las tuberías de metal.

**INSTRUCCIONES:**

Uselo de 6-8 onzas, 3 o 4 veces por semana para controlar la acumulación de suciedad. Uselo en cualquier hora del día o de la noche en la cual se pueda dejar en el sanitario y en la tubería sin hacer el agua.

## Additional Information

REMOVE Uratic Salt Remover is a specialty product designed for one particular problem. What makes REMOVE so popular is that this particular problem is found in every restroom especially where there are urinals. Any men's bathroom that has been in operation for any length of time will eventually develop an offensive odor emanating from the urinals. Automatic deodorizers and urinal blocks can mask the odor for a while, however, the foul smell somehow keeps getting stronger and stronger. The source of this odor is the build-up of uratic salts in the urinals, toilets and plumbing pipes. In the pipes, this build-up takes the form of a hard, crystalline substance that smells horrible, resists all drain-openers and all efforts to remove the build-up with a snake. REMOVE safely and easily removes this build-up, controls the odor and cleans the fixture. Use this product to clean toilets and urinals periodically and REMOVE will eliminate foul odors, remove the uratic salt build-up and keep restrooms smelling clean. For an easy demonstration of the effectiveness of this product, put an eggshell into a glass containing REMOVE and water, (the eggshell simulates the calcium based build-up), and see how fast the product attacks the shell. To demonstrate the uniqueness of REMOVE, try the same test with other cleaners and treatments normally used in restrooms. For more information or a demonstration, contact your local SUPERCO representative.
