

RTV

WHITE, CLEAR, BLUE
& ALMOND

Mildew Resistant RTV Silicone Caulk Sealant

- 100% SILICONE RUBBER
- PERMANENTLY FLEXIBLE

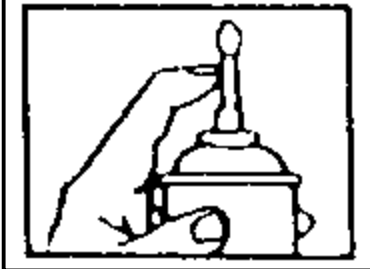

- WHITE WITHSTANDS -40°F TO 450°F
- CLEAR WITHSTANDS -60°F TO 450°F
- BLUE WITHSTANDS TO 600°F & 350 PSI
- ALMOND WITHSTANDS -60°F TO +500°F

Product # 1109 White
Product # 1112 Clear
Product # 1116 Blue
Product # 1120 Almond

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

Leave a small bead of material which will form a sealing "plug" for reuse. To reuse, gently pull out "plug" and begin to use material. If plug breaks leaving the dispensing tip sealed, use a paper clip or other wire object to remove and loosen the remainder of the cured material.

RTV WHITE/CLEAR/BLUE/ALMOND Silicone is ideal wherever a strong permanently elastic weatherproof ADHESIVE, SEALANT, or CAULK is needed. This product has excellent adhesion characteristics, high chemical resistance and will not sag or shrink due to severe temperature extremes. Use for sealing cracks in machinery, heating and ventilating duct work, plumbing fixtures, electrical connections, low pressure water and drain pipes. **RTV WHITE/CLEAR/BLUE/ALMOND** bonds nameplates, machinery flanges, glass, signs, windows, doors, walls, ceiling cracks and crevices. Forms in place gaskets. Paint will not adhere to cured material.

USES:

- Caulks around tubs, sinks showers.
- Insulates electrical components.
- Seals around doors, windows, walls.
- Bonding and sealing appliance parts.
- Caulking joints in sheet metal stacks, ductwork and equipment.
- Bonding and sealing of marine windows and cabins.
- weather-stripping
- Body seam seal

RTV WHITE/CLEAR/BLUE/ALMOND is a revolutionary type of adhesive/sealant that bonds to almost any surface and stays permanently flexible under severe temperature extremes. This special RTV formula will not shrink or sag under conditions ranging from -60°F to 450°F making **RTV WHITE/CLEAR/BLUE/ALMOND** the ideal sealant or adhesive in areas subject to weather or temperature extremes. Use this product for marine applications such as sealing windows, portholes, body and hull inner seams, cleats and lights as well as tacking down carpets and upholstery. **RTV WHITE/CLEAR/BLUE/ALMOND** works great on automobiles and recreational vehicles for sealing windshields, weather-stripping, electrical components and exterior lights. Why go to the trouble of sealing these areas every winter just to have the material harden, shrink and crack every summer? Use **RTV WHITE/CLEAR/BLUE/ALMOND** where these other products have failed and eliminate unnecessary resealing of important areas. **RTV WHITE/CLEAR/BLUE/ALMOND** is packaged in a unique piston-driven can that provides all the benefits of caulking tubes but does not require the use of a caulking gun.
