

# SHINEY BRIGHT

## All Metal Cleaner & Polish

Use on Brass • Chrome • Copper • Bronze  
Nickel ? Stainless Steel ? Pewter & All Metals

REMOVES TARNISH, STAINS, DIRT, OXIDATION, FINGERPRINTS.  
LEAVES A MICRO-MOLECULAR RESISTANT FILM  
REMOVES HEAVY TARNISH & RUST

Environmentally Safe - Non-Toxic - Non-Polluting  
Mild - Contains No Acid or Abrasives  
100% Natural - 100% Organic - Nonflammable USDA Authorized

**Product #4017**

**FOR PROFESSIONAL USE ONLY**  
CONSULT LABEL AND MSDS BEFORE USING.

# ENVIRONMENTALLY FRIENDLY

SHINEY BRIGHT

**SHINEY BRIGHT** is an earth friendly all metal polish with superior performance. This remarkable product quickly removes the toughest oxidation and tarnish without the need for acids or abrasives.

### DIRECTIONS FOR USE:

**General cleaning:** Apply polish with a soft cloth. Buff surface to a brilliant luster with a dry, soft cloth.

**For heavy tarnish & rust:** Apply polish with a non-scratch applicator pad, or fine steel wool. Buff surface with a dry, soft cloth.

**Maintenance:** **SHINEY BRIGHT** polishes and protects all metals. As needed, apply a small amount of **SHINEY BRIGHT** to a dampened sponge. Wipe metal area and buff with a soft, dry cloth.

*We at SUPERCO are doing our share as a responsible company to help keep our natural resources and environment clear and clean. We are pleased to introduce our new line of earth friendly, biologically degradable products that meet and exceed our usual high standards of excellence and performance while still meeting your requirements as the end user.*

AEROSOL CANS CONSIST OF AT LEAST 25% RECYCLED STEEL AND ARE RECYCLABLE WHEN EMPTY.

OXALIC ACID	144-62-7
MINERAL SPIRITS	8030-30-6
MORPHOLINE	100-91-8

## Additional Information

**SHINEY BRIGHT** Earth Friendly All Metal Polish is an advanced formula that combines the luster and protection achieved with cream polishes with the cleaning power normally found only with acidic products. This quick and easy process makes the task of maintaining decorative metal surfaces much less time consuming. Conventional metal polishes use harsh acids and abrasives to strip away tarnish and oxidation, however, this process leaves the metal bare and unprotected. As a result, oxidation begins immediately and the surface will re-tarnish in a matter of hours. To maintain beautiful looking metals with commercial polishes requires daily labor. **SHINEY BRIGHT** cleans, polishes and leaves a protective coating to help keep the surface looking great for days and weeks at a time. Routine maintenance is also much faster with **SHINEY BRIGHT**, using a damp towel with a small amount of polish brings back a beautiful finish in seconds. This environmentally safe, mild formula can reduce the labor spent on metal polishing and maintenance by as much as ten times. **SHINEY BRIGHT** is one of many Earth Friendly products from American Industrial Supply Inc., all of which feature superior performance while making it possible for the end user to help us protect our precious natural resources. Contact your local **SUPERCO** representative for a demonstration of **SHINEY BRIGHT**.
