SUPER STEEL

Pure
Stainless Steel
Coating

- 100% PURE STAINLESS STEEL
- SUPER DURABLE COATING
- HEAT RESISTANT TO 500°F
- PREVENTS RUST & CORROSION

Product # 1071

FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.

SUPER STEEL
Pure Stainless Steel Coating

SUPER STEEL is a super tough coating containing 100% pure 316L Stainless Steel and an ultra durable acrylic binder. Protects metal from corrosion and deterioration caused by harsh chemicals, severe weather or abrasion.

Authorized by the USDA for use in federally inspected meat and poultry plants.

DRIES IN FIFTEEN MINUTES
WILL NOT DARKEN OR OXIDIZE
APPLICATIONS:

Condensate pans, Radiators, Steam Pipes, Fire Hydrants, Mufflers, Parking Meters, Wire Fences, Boilers, Engines, Water Lines, Lockers, Heat Exchangers, Tanks, Chemical Processing and Production Equipment, Plumbing Fixtures, Furnaces.

DIRECTIONS FOR USE:

1. Surface must be clean and dry before painting. For best results, use when can is between 70° and 90° F.
2. Shake can at least one minute before and occasionally during use.
3. Spray surface with steady even strokes at a distance of 8 to 10 inches. Several light coats give a better finish than one

INGREDIENTS	CAS #
Toluol	108-88-3
Acetone	67-64-1
Propane	74-98-6

- heavy coat.
4. If clogging develops, turn spray button ¼ turn or remove and clean button slot. Do not stick objects into can opening.
 5. After painting, turn can upside down and spray for 2 seconds to clean spray button.
 6. Discard empty can in trash pick up. Do not incinerate or compact.

Additional Information

SUPER STEEL is the most durable spray coating available. Anywhere corrosion or abrasion are a constant problem use **SUPER STEEL** and get on top of the situation. Tired of painting handrails every year? Get **SUPER STEEL** and enjoy nice looking walkways every year with no tedious painting of rails due to wear and tear. Do you have fencing or flashings that are rusting all over you buildings and patios? Coat these areas with **SUPER STEEL** and prevent the rust and corrosion. Use Superco's **DE SCALE** to get rid of those ugly rust stains and **SUPER STEEL** to make sure these areas do not re-rust. Bring new life to outdated cooling towers, chillers and A/C condensate pans with a coat of Stainless Steel. Use Superco's **CONVERT** to convert rust that you cannot remove to a paintable polymer then coat with **SUPER STEEL** to seal in rust so you will never see it again. Superco's New and Improved formula features an acrylic binder for enhanced durability as well as a more attractive finish. **SUPER STEEL** contains no CFC's and is less than 80% VOC's and complies with the most stringent air-care regulations, such as the Bay Area Air Quality District in Northern California. For more information and a demonstration of **SUPER STEEL**, contact your local **Super Specialty Products** representative.
