DIS-SOLVE

WORKS FASTER ON OVENS PREHEATED TO 200° F. THICK CLINGING FOAM DISSOLVES CARBONIZED FOOD ON GRILLS THEN FLUSHES AWAY EASILY.

Authorized by USDA for use in federally inspected meat and poultry plants.

DIRECTIONS FOR USE:

1. Protect from overspray on floors and exterior cabinet trim.
2. Remove racks and clean separately.
3. Wear gloves.
4. Shake well. Spray toward walls at distance of 8 to 12 inches.
5. Allow foam to stand 5 to 10 minutes longer for cool oven.
6. Wipe clean.
7. *For establishments operating under Federal meat and poultry products inspection program, cleaning must be followed by a potable water rinse.
8. To lengthen times between cleaning, coat with oven & hood protector.

 1310-58-3
 111-76-2

Additional Information

DIS-SOLVE Oven and Grill Cleaner is a strong foam cleaner that quickly dissolves oven grime, carbon deposits and grease build-up. This powerful cleaner works fast but does not have the harsh fumes common to most oven cleaners. **DIS-SOLVE** sprays on as a clinging foam that stays where you apply it providing better contact time and more effective cleaning. **DIS-SOLVE** is an advanced blend of powerful cleaning agents specifically designed for the professional maintenance person who is looking for the best possible performance. It is estimated that 90% of the cost of maintenance today is labor expense. Most oven cleaners have to be sprayed and scrubbed in multiple applications before the job is finished correctly. **DIS-SOLVE** is so effective that under normal conditions the job is finished with only one application, spray on and wipe off. Using this remarkable product can actually cut the labor time in half or even more. Many workers complain of horrible odors when using conventional oven cleaners and are somewhat reluctant to finish the job completely. **DIS-SOLVE** has a pleasant smell that won't adversely affect the person using the product making the task not only much faster but also much more pleasant. Contact your local Superco Specialty Products representative for a demonstration of **DIS-SOLVE**.
