Product # 1139

FOR PROFESSIONAL USE ONLY  
CONSULT LABEL AND MSDS BEFORE USING.

## HIGH GLOSS

### Foaming Tire Shine

HIGH GLOSS FOAMING TIRE SHINE cleans, protects and leaves a wet looking shine-all in one easy step. HIGH GLOSS FOAMING TIRE SHINE has a clinging foam dissolves dirt and road grime and floats it away, leaving a beautiful, wet looking, long lasting shine. No wiping or scrubbing is needed. Can sprays upside down and right side up for ease of use at any angle. Will not harm wheels or wheel covers. Note:

Excessive soil buildup should be removed by rinsing or brushing tire prior to use.

#### DIRECTIONS FOR USE:

HIGH GLOSS FOAMING TIRE SHINE should only be used applied to tire sidewalls, not tire treads, brake pedals, or other areas where slippery conditions should be avoided. Shake well. Spray evenly over surface in a slow sweeping motion, keeping can 6-8 inches from tire surface. Allow foam to completely dissipate, about 10 minutes. Excessive brake dust should be removed prior to treatment. No wiping is necessary.

## Additional Information

HIGH GLOSS FOAMING TIRE SHINE quickly cleans tires without wiping or scrubbing. Once HIGH GLOSS FOAMING TIRE SHINE foam dissipates, a high gloss protective shine remains on the tire for days. Simply spray on and walk away. HIGH GLOSS FOAMING TIRE SHINE quickly penetrates to lift grease, dirt, and grime from the tire sidewalls. HIGH GLOSS's thick clinging foam prevents runs and drips on wheels. Each can will clean, shine, and protect up to 30 tires and will not harm wheels or wheel covers. HIGH GLOSS FOAMING TIRE SHINE is ideally suited for use in a variety of areas including fleet shops, detail shops, car washes, bus barns, automotive dealers and auto repair shops. For use on all car, truck, bus, and equipment tires. For a demonstration of HIGH GLOSS FOAMING TIRE SHINE, contact your local Superco Specialty Products representative.
