

ENVIRONMENTALLY FRIENDLY

PEN-TECH

NON-CHLORINATED PENETRATING LUBRICANT

PEN-TECH Penetrating Lubricant & Demoisurant is the most advanced formula available today. This remarkable product does not contain any chlorinated solvents, no 1,1,1-Trichloroethane, no Trichloroethylene(TCE), no Perchloroethylene, no Methylene Chloride or any other dangerous ingredients. **PEN-TECH** is the ultimate in penetrating lubricants, is non-flammable and non-conductive with a dielectric strength of 39,000 volts. **PEN-TECH** creates a waterproof film that dries out electrical equipment, inhibits corrosion and prevents electrical discharge. **PEN-TECH** protects and creates a non-drying film that guards against atmospheric and mild chemical corrosion.

MEETS MILITARY SPECIFICATIONS C-23411

Authorized by USDA for use at Federally inspected meat and poultry plants.

DIRECTIONS FOR USE:

Spray frozen parts liberally, let set and the penetrating formula goes to work. **PEN-TECH** cuts through grease, displaces any moisture, penetrates and loosens any rust or corrosion making it easy to separate the parts. Repeat as necessary. For faster assembly, spray nuts, bolts and parts before use.

For wet ignition systems: Remove distributor cap and spray directly onto contacts to restore system.

For wet breakers and switches: Spray directly onto wet contacts to restore connection. To assure adequate protection reapply periodically.

The Y E S Company!!

PEN-TECH

NON-CHLORINATED
PENETRATING LUBRICANT
PROTECTANT AND DEMOISTRANT

- NON-FLAMMABLE
- NON-CONDUCTIVE TO 39,000 VOLTS
- PENETRATES & FREES FROZEN NUTS, BOLTS AND FITTINGS
- DISPLACES WATER & CREATES A MOISTURE BARRIER
- PROTECTS AND NEVER DRIES

Product # 1157

**FOR PROFESSIONAL USE ONLY
CONSULT LABEL AND MSDS BEFORE USING.**

INGREDIENTS	CAS NUMBER
ISOPARAFFINIC HYDROCARBON	64742-46-7
MINERAL OIL	8042-47-5
DIPRPLYENE GLYCOL	
MONOMETHYL ETHER	34590-94-8
OCTAMETHYLCYCLOTETRAILOXANE	556-67-2
CARBON DIOXIDE PROPELLANT	124-38-9

B	PROTECTION

Additional Information

PEN-TECH Penetrating Lubricant & Demoisurant is truly the safety department's best friend. This remarkable formula contains **NO** TCE (Trichloroethylene), **NO** Perchloroethylene and **NO** Methylene Chloride. **PEN-TECH** out performs other penetrants and lasts longer than other protectants and demoisurants giving you the protection and performance you need. **PEN-TECH** features a non-flammable formula that is non-conductive to 39,000 volts, the highest in the industry. **PEN-TECH** will break loose rusted parts and make disassembly and reassembly faster and easier. This non-drying protectant will seal out moisture and corrosion adding life to expensive electrical equipment that may be subjected to harsh environments. For more information on our comprehensive line of lubricants or a demonstration of the effectiveness of **PEN-TECH** contact your local **SUPERCO** sales representative.
