**Section VIII - Precautions for Safe Handling and Use**

Steps to be Taken in Case Material is Released or Spilled:  
 If container is ruptured and begins to leak, place in a well ventilated area and eliminate all ignition sources.  
 Waste Disposal Method: do not discard empty container in incinerator or fire. Dispose of in accordance with Local, State, and Federal regulations.  
 Precautions to be Taken in Handling and Storing: Store in cool area away from heat or open flame. Do not store above 1300F as containers may burst releasing the highly flammable propellant. Store as Level Aerosol (NFPA 30B)  
 Other precautions: In case of rupture, ventilate to prevent concentrations from reaching flammable levels. Note: any copies or redistribution of this M.S.D. Sheet must not be modified in any way.
